Summary

The following report, D.6.10 Press Releases, Websites, Publication of Articles in Scientific Journals and Magazines, is a summary report that provides an overview of the media work accomplished and the scientific articles written in the framework of the H2020 SCORE project. It brings together all press releases, website and scientific articles that were published since April 2018 by the project consortium. Furthermore, the reader may find references to past media highlights, such as appearances in audio and TV, as well as the complete list of academic literature produced.

It is worth mentioning that the report is closely intertwined with D.6.9 Promotion Material, which covers other communication channels that were continuously maintained and used in SCORE, such as newsletter and social media. Together, both reports form a unit to summarize communication, dissemination and exploitation activities undertaken within Work Package 6 by the SCORE consortium.

1. Media Work

1.1. Press Releases

Press releases have been prepared and published on major events organised by the SCORE consortium.

April 21, 2021: Online seminar at Berlin Energy Days

The roof organiser of the Berlin Energy Days, EUMB Pöschk, provided for all organisers of events at the Berlin Energy Days a central press service (Energietage Telegramm). Here, co2online published a press release on the event “Die neue EU-Richtlinie für erneuerbare Energien (RED II) - Chance für Bürgerenergie und Kommunen?”, which was attended by more than 300 people.

- [Press Text “Bürgerenergie für alle: Spielräume für neue Modelle nutzen“ \(23.04.2021\)](#)

November 17-18, 2021: Final Conference SCORE

On the occasion of the SCORE Final Conference, co2online prepared for all SCORE partners an English template for a press release to inform journalists about the upcoming conference and its topics and also invite them to participate / register to it. The partners were asked to translate, adapt and publish the press release in their respective countries. This was implemented in the Czech Republic and in Germany one day before the conference start:

- [Press release \(CZ\) by the City of Prague \(16.11.2021\)](#)
- [Press release \(DE\) by co2online \(16.11.2021\)](#)

1.2. Radio and TV

On two occasions, the SCORE team attracted the interest of German television.

RBB, Brandenburg Aktuell

The regional public TV channel RBB covered the SCORE Kick-Off with a 1 minute feature within the daily news programme Brandenburg Aktuell.

- [News post with link to the TV recording](#)

ZDF, Plan B

In the context of the pilot project in Essen, a film team of the nation-wide public TV channel ZDF produced a feature on citizen energy in January 2021. Broadcasting was planned in the context of ZDF’s “Plan-B” early in 2021.

- [News post on the recordings in Essen](#)

The SCORE team took extensive efforts to provide for interesting aspects, including film sequences at the Italian pilot project in the Susa Valley. For reasons, which were not disclosed to the SCORE team, ZDF decided against including the film in the Plan-B programme, the feature was therefore never published.

2. Websites

In addition to the English language SCORE website, the partners also communicated via their own websites on SCORE in their national language:

Czech Republic / Porsenna

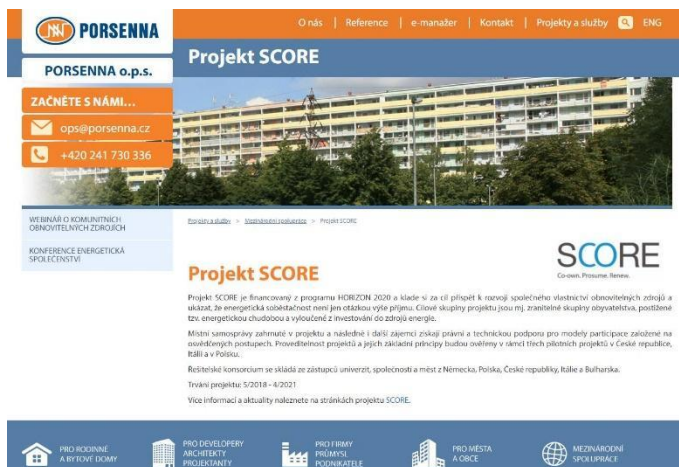

Figure 1: SCORE website from the Czech Republic / Porsenna

Czech Republic / City of Prague

Úvod > O městě > Život v Praze > Životní prostředí

V Praze se uskuteční část mezinárodní konference k tématu obnovitelných energií

Hlavní město Praha je partnerem projektu SCORE (Supporting Consumer Ownership in Renewable Energies), který se věnuje podpoře vlastnictví spotřebitelů v oblasti obnovitelných energií.

6. září 2021

Projekt, který byl podpořen z prestižního programu Evropské unie HORIZON 2020, oficiálně k 31. prosinci 2021 končí. S tím je také spojeny uspořádání závěrečné mezinárodní konference, která se uskuteční 17. až 18. listopadu 2021 v italském Turíně. Těto akce budou ještě předcházet pražské části konference. Jedním z témat budou i zkušenosti z pilotních městských projektů SCORE.

Italy / Politecnico di Torino

The screenshot shows the website of Politecnico di Torino, specifically the 'POLITOCOMUNICA' section. The main navigation includes 'Corporate Image', 'Events', 'Multimedia', and 'Press Room'. The current page is titled 'Appuntamenti' (Appointments) and lists an event for October 6, 2021, at 9:00 AM ONLINE. The event is 'SCORE - SUPPORTING CONSUMER OWNERSHIP IN RENEWABLE ENERGIES', held on the Zoom platform. The event description mentions a national seminar moderated by Patrizia Lombardi. A calendar for December 2021 is visible on the left, with the 10th highlighted. The event details include a list of bullet points: 'Agevola i consumatori a diventare (co-)proprietari di Energia Rinnovabile nelle tre regioni pilota e nelle città europee che seguono i casi pilota.', 'Attiva le autorità locali ed i consumatori mostrando la capacità di questo modello di partecipazione democratica al fine di includere donne e famiglie a basso reddito.', and 'Formula raccomandazioni politiche a livello europeo e a livello nazionale per promuovere l'attività di "prosumership" e rimuovere gli ostacoli che impediscono ai consumatori di diventare partecipanti attivi nel mercato energetico.' The text concludes with 'SCORE mette in pratica "Piani di azionariato dei consumatori" (CSOPs) utilizzando le migliori pratiche mediante tecniche di finanziamento inclusive. SCORE si rivolge a gruppi vulnerabili affetti dalla povertà energetica così come donne e sviluppa azioni di impegno efficaci ed innovative adeguate per le esigenze.'

SUPPORTING CONSUMER OWNERSHIP IN RENEWABLE ENERGY: CHALLENGES TO BE MET

Categoria: Seminari e Convegni
 Stato: Archiviata

Online

The event will take place on

- Wednesday 17th November from 14.00 to 17.20 hrs
- Thursday 18th November from 9.30 to 12.45 hrs

The latest IPCC report dramatically underlined the need for action to meet the climate targets of the Paris Agreement. At the same time, the conversion of our energy systems to 100% renewables is lagging; citizens are mostly excluded from the process. The conference will explore strategies and present examples on how citizen energy projects can accelerate the energy transformation and ensure a just transition and inclusiveness, which is necessary to reach the aim of climate neutrality.

Speakers:

Prof. Patrizia Lombardi - Vice-Rector of the Politecnico di Torino
 Prof. Jens Lewitzsch, Coordinator SCORE, European University Viadrina
 Dr Vincent Berruto, DG ENER, Deputy Dir.-Gen., HoU Innov., Res, Digitalisation, Competitiveness (tbc.)
 Prof. Domenico Villacci President of the Italian Interuniversity Consortium ENSIEL
 Italian Ministry for the Ecological Transition (tbc.)

The live discussion will take place in Torino and will be transmitted in digital format due to the COVID pandemic.

SCORE

Supporting Consumer Ownership in Renewable Energy

SCORE helps consumers become prosumers of renewable energy, first in three pilot regions in Italy, Poland and the Czech Republic, and later in cities across Europe. In the project both local authorities and consumers will get a change to demonstrate the positive impact co-ownership has on consumer behaviour. Bringing together 14 partners from 5 European countries, SCORE will show how energy prosumership can be mainstreamed for all social classes with particular attention paid to the participation of women and social groups vulnerable to fuel poverty.

Within the project, Climate Alliance is supporting the preparation action plans in the three pilot regions and helping get local authorities beyond the project consortium on board as follower cities.

Project funding period: April 2018 – December 2021
 via Horizon 2020 (European Union)

4. Events

The events organised within the SCORE project are presented on the SCORE website under the “Events” menu at <https://www.score-h2020.eu/news-events/>.

General Data	
Acronym	SCORE
Project title	Supporting Consumer Co-Ownership in Renewables
Grant Agreement N°	784960
Call identifier	H2020-EE-2016-2017
Topic identifier	Engaging private consumers towards sustainable energy
Funding scheme	Coordination and Support Action
Start Date	1 April 2018
Duration	45 months (extended by 9 months)
Deliverable Document Sheet	
Deliverable	D 6.10 Press Releases, Websites, Publication of Articles in Scientific Journals and Magazines
Lead beneficiary	co2online and Climate Alliance
Work package	WP 6
WP-leader	co2online
Submission due	December 2021
Submission date	December 2021
Dissemination type	Websites, patent filling, etc.
Dissemination level	Public
Document properties	
Author(s)	Laurenz Hermann, Jonas Eimermacher (co2online) Marie Kleeschulte, Andrea Carosi (Climate Alliance)
Reviewer(s)	Alexander West, Jens Lowitzsch (European University Viadrina)

Imprint

SCORE facilitates consumers to become (co-)owners of RE in three pilot regions and in cities across Europe following these pilot projects. SCORE applies Consumer Stock Ownership Plans (CSOPs) utilising established best practice updated by inclusive financing techniques. Vulnerable groups affected by fuel poverty – as a rule excluded from RE investments – are in the focus of the project.
